

Stealth: A Transmasculine Podcast with Jackal Tanelorn

FRIDAY, OCT 21, 2022 | 1 P.M.

Kai and Jackal created Stealth: A Transmasculine Podcast in order to reconnect with our transelders and litter mates as well as bridge the generation gap within our transmasculine community. Stealth is a podcast that captures the stories of transmasculine elders who transitioned before or around the year 2000. The term “stealth” highlights the fact that our generation was often told to hide our past, and live an underground existence.

The LGBTQ Center will host a viewing session for this event. We invite you to gather at the Lufrano Intercultural Gallery, Building 58E, Suite 2401, for light refreshments.
