

The Human in the Loop: Harnessing Your Creativity in an AI World

Join Dr. Rebecca Bilbro as she discusses AI ethics, the role we all play in cultivating AI use, and her personal journey from the humanities into machine learning and entrepreneurship.

Dr. Bilbro is a data scientist, Python programmer, teacher, and author. As CTO of Rotational Labs, she specializes in machine learning and APIs for distributed data systems. She has conducted research on natural language processing, semantic network extraction, entity resolution, and high dimensional information visualization, and is an active open source contributor. She earned her doctorate in Writing Studies from the University of Illinois, Urbana-Champaign, where her research centered on communication and visualization in engineering.
