The Duval County Medical Society, Florida Medical Association, and University of North Florida Environmental Center, in partnership with the American Medical Association and the Center for Health and Global Environment at Harvard Medical School, invite you to attend a free public health forum on

Climate Change and Human Health: An Evening with Experts

Wednesday, February 23, 2011 5:30 - 7:30 PM refreshments provided

University Center University of North Florida 12000 Alumni Drive Jacksonville, FL 32224

Registration:

Please register at www.dcmsonline.org There is no fee to attend

Come and learn:

- the scientific principles underlying global climate change;
- the dimensions of human health attributable to climate change;
- which medical conditions are worsened by climate change trends.

This complimentary forum helps physicians, health professionals and citizens better understand the science of climate change, the link between global climate change and local health issues, and the mitigating actions that can be taken in our daily lives and in public health policy. This program is open to the medical community, students, and the general public.

Expert Faculty

PAUL R. EPSTEIN, M.D., M.P.H. Dr. Epstein is Associate Director of the Center for Health and the Global Environment at Harvard Medical School (chge. med.harvard.edu) and is a medical doctor trained in tropical public health. Paul has worked in medical, teaching and research capacities in

Africa, Asia and Latin America. Dr. Epstein received recognition for his contributions on the work of the Intergovernmental Panel on Climate Change (IPCC), and awarded the Nobel Peace Prize in 2007.

DAVID R. EASTERLING, PH.D.

Dr. Easterling is currently Chief of the Scientific Services Division at NOAA's National Climatic Data Center (www. noaa.gov) in Asheville, NC. He has authored or co-authored more than eighty research articles on climate change issues in journals such as Science, Nature and the Journal of

Climate. Dr. Easterling was a lead author for the Nobel Prize winning Intergovernmental Panel on Climate Change (IPCC) Fourth Assessment Report.

Reactor Panel

Todd L. Sack, M.D.

Chair, FMA Environment and Health Section and Past President, Duval County Medical Society Dr. Todd Sack is a Gastroenterologist with the Borland-Groover Clinic in Jacksonville. He chaired the

Climate Change Advisory Group for the Florida Energy Commission and is co-author of the website www.mygreendoctor.org.

Radha Pvati, Ph.D.

Director, Environmental Center, University of North Florida Dr. Radha Pvati is an Associate Professor of Chemistry and Director of the Environmental Center at the University of North Florida. The Center responds to the pressing need for research relevant to environmental issues and promotes thoughtful planning processes, responsible stewardship, and a future generation of environmentally literate society leaders.

Two University of North Florida students will also be included on the reactor panel
